

Collaboration with academic institutions

University of Nairobi is on board . . .

Car & General (Kenya) Limited entered a Memorandum Of Cooperation (MoC) with the University of Nairobi to offer training and attachment for students and donate equipment and fund projects for the institution.

The memorandum was signed by Professor Stephen M. Mutuli (left), the Chairman of the Department of Mechanical and Manufacturing Engineering of the University, Vijay Gidoomal (centre), the Group Managing Director of Car & General and Professor Frank Oduori (right), an Associate Professor.

This is in a bid to support learning institutions through our social responsibility programs program.
