Pepsi Chooses IR

SBC Kenya Limited, a franchise bottler and distributor of Pepsi beverage products, took delivery of an Ingersoll Rand oil free air compressor from Car & General to drive the production lines for Pepsi Cola, Mirinda, 7UP, Tonic Water and Club Soda soft drinks.

The air compressor are powered by a Hybrid Permanent Magnet (HPM) motor to produce compressed air which is used to power industrial applications. Pepsi said they chose an air compress system which is environmentally friendly. All Pepsi factories in the world comply with the environmental, health and safety regulations and standards set by the governments of the countries in which we work.
